

 RELEASE NOTES

# Altair Monarch

Version 2021.0

# Monarch Classic

Issue ID	Resolved Issue
<b>MOD-3444</b>	Selecting an existing file to append to during export prompts a warning asking if you want to replace the file.
<b>MOD-3540</b>	SAPEXport doesn't follow default increment of Export Name
<b>MOD-3688</b>	Cannot import data when using CData SparkSQL ODBC
<b>MOD-3690</b>	Table Design - Formula Field / Filter - Ctrl+MWheel is failing to zoom the formula editor while it has focus
<b>MOD-3727</b>	When output file is a spreadsheet, "Show Tables" incorrectly shows sheet names in addition to named ranges.
<b>MOD-3746</b>	Floating traps: When replacing sample text, mask characters at the beginning of the line do not move with the rest
<b>MOD-3750</b>	Expression Search in Table view will sometimes fail to match on the last row of the table
<b>MOD-3751</b>	Expression Search in Table will sometimes fail when null values are present
<b>MOD-3764</b>	Find In Table in Report View doesn't function when Table View isn't loaded
<b>MOD-3787</b>	Summary doesn't display properly after deleting another summary
<b>MOD-3802</b>	Summary fails to display properly after changing a value in a specified values key
<b>MOD-3805</b>	Improve the error message that is displayed when file paths inside of a Workspace get broken due to sources being moved
<b>MOD-3872</b>	Exporting Column Headers only to PDF produces an empty PDF file
<b>MOD-3873</b>	Table Filters - Checkboxes disabled after selecting option "Select rows according to their uniqueness .."
<b>MOD-3876</b>	Selected Report Font Not Persisted
<b>MOD-3877</b>	Value filter having no specified values and 'exclude rows' options produces no rows
<b>MOD-3881</b>	Monarch Utility - Missing description text in Clear Credentials options
<b>MOD-3898</b>	Crash - Filtered table grid crashing in certain instances
<b>MOD-3904</b>	Hang when creating a template whilst a high number of Report Lines are selected for the sample
<b>MOD-3908</b>	Prompt setting for saving PDF passwords may prompt regardless of password
<b>ENHANCEMENT</b>	Report Search is now cancellable
<b>ENHANCEMENT</b>	Summary build caching optimizations
<b>ENHANCEMENT</b>	Enhanced security for Named Pipe communication with Data Prep Studio

## Monarch Classic

Issue ID	Resolved Issue
<b>ENHANCEMENT</b>	Show warning dialog when "Snap Text Left" and "Snap Text Up" PDF options are checked
<b>DEPRECATED</b>	Panopticon Designer Export
<b>DEPRECATED</b>	Knowledge Hub Integration in Monarch Utility

## Data Prep Studio

Issue ID	Resolved Issue
<b>DPS-1547</b>	Define Merge dialog resize disappears after shrinking
<b>DPS-1555</b>	Row limit selection not showing on return visits when set to 0
<b>DPS-1582</b>	Obscured error message when exporting to Microsoft Access
<b>DPS-1584</b>	Missing error message for Qlik and Tableau export
<b>DPS-2042</b>	Invalid network password error when opening a Project which has a web reference for a file
<b>DPS-2334</b>	Add Change to a Group is not working as expected
<b>DPS-2433</b>	Renaming Column Behavior is inconsistent.
<b>DPS-2452</b>	Column that contains negative decimal value displays incorrect value
<b>DPS-3819</b>	Floating traps: When replacing sample text, mask characters at the beginning of the line do not move with the rest
<b>DPS-6652</b>	Cannot import data when using SparkSQL ODBC
<b>DPS-6762</b>	'Failed to authenticate with provided credentials' error when opening a workspace with Box Cloud Storage
<b>DPS-6832</b>	Dropping a report onto a Model node erases all passwords from all files under the Model node
<b>DPS-6887</b>	Change or setting Filter Value can cause an error after clicking OK button
<b>DPS-6908</b>	Login Failed error dialog appears when going to "Edit Table Info" of an inaccessible IBM Cloudant table.
<b>DPS-6913</b>	ServiceName value is still displayed in Oracle Connection dialog even after including it in the user-defined sensitive parameter list
<b>DPS-6940</b>	Report Design: Changing some types of templates during search can terminate the report search procedure
<b>DPS-6957</b>	A text report file may be locked after opening in Report Design, searching, then canceling

# Data Prep Studio

Issue ID	Resolved Issue
DPS-6969	The values in column-expanded array structure column are not displayed in Preview Data of the MongoDB Connection dialog
DPS-6972	HTML Explorer - Window can get stuck behind main window
DPS-6989	Conversion Options fail to apply to current Workspace if the user also selects to apply Display Options before confirmation
DPS-6995	OLEDB - cropped label in Date Time section
DPS-7000	Workspace Settings - Conversion Options fail to apply to current tables if the user selects apply to tables
DPS-7004	Excel worksheet design not correctly handling formulas with names defined in Excel Name Manager
DPS-7015	Time interval settings not persisted correctly
DPS-7023	File view nodes do not display search highlight in the navigation panel
DPS-7052	Other Connection Options textbox is missing in the JIRA Connection dialog
DPS-7081	The NOT state of trap characters can be lost after replacing sample text
DPS-7151	Floating trap 'Shift to match sample' option not always available
DPS-7171	Naming a Summary, "No Summary" causes the entire Summary bar to disappear
DPS-7228	Report Design: Hitmap may become blank after multiple quick Model edits
DPS-7247	Unpivot Selected Columns mode does not sufficiently limit the displayed size of its error message when many columns go missing
DPS-7267	Filters for character data type in Box Cloud connection dialog is not working
DPS-7268	Error encountered when using 'Greater Than Equal' and 'Less Than Equal' for Date data type in Box Cloud Storage Connection dialog
DPS-7287	OleDb and Odbc export behavior with Null values are not consistent with Monarch Classic
DPS-7305	Combine Tab- Children of multi-file tables should not be drag-able as they are not eligible for joining
DPS-7334	Crash when editing Monarch Server table info when dates are unchecked on a machine with German regional settings
DPS-7349	Connectors: Preview grid style is different for New and Edit connections
DPS-7365	Library dialog: Error message overlaps grid headers
DPS-7401	Possible crash when deleting a table which is part of a join in Join Configuration
DPS-7405	Metadata columns button content is not centered in Change History

# Data Prep Studio

Issue ID	Resolved Issue
<b>DPS-7408</b>	Connectors: Fetch Database list is not sorted
<b>DPS-7414</b>	SparkSQL Connector may hang when clicking Preview Data
<b>DPS-7484</b>	Error when clicking on JSON or XML file nodes in table tree
<b>DPS-7491</b>	Report Design: Field editor does not scroll at all when editing a start/end region template.
<b>DPS-7492</b>	No columns are imported when converting a Monarch Project which uses the Modern Excel engine
<b>DPS-7513</b>	Report Verify - Dotted box does not scroll properly with the fragments it surrounds
<b>DPS-7531</b>	Projects import with all columns despite which columns are actually selected in the project
<b>ENHANCEMENT</b>	Override Column Types when importing Excel as a database
<b>ENHANCEMENT</b>	Various Report Design improvements
<b>ENHANCEMENT</b>	Automatically sync columns with source data on load or refresh for Excel & Delimited Text inputs
<b>ENHANCEMENT</b>	Show warning dialog when "Snap Text Left" and "Snap Text Up" PDF options are checked
<b>ENHANCEMENT</b>	Enhanced security for Named Pipe communication with Monarch Classic
<b>NEW FEATURE</b>	PDF Table Extractor incorporated into Data Prep Studio
<b>NEW FEATURE</b>	Named Filters (and importing definitions from Monarch Classic Models)
<b>NEW FEATURE</b>	Cleansing Macros
<b>NEW FEATURE</b>	Command Line Automation interface (Altair Units or with special license)
<b>NEW FEATURE</b>	Snowflake Connector ( <b>Note:</b> Java Virtual Machine (JVM): Java SE 8 or higher (LTS version), including Oracle JDK and OpenJDK distributions.)
<b>NEW FEATURE</b>	ServiceNow Connector
<b>DEPRECATED</b>	Panopticon Designer Export
<b>DEPRECATED</b>	Knowledge Hub Integration in Monarch Utility
