

ISSUE ID	RESOLVED ISSUE
<b>MONARCH CLASSIC</b>	<b>(MONARCH CLASSIC &amp; MONARCH COMPLETE)</b>
<b>MOD-3209</b>	Truncation issue with SUB characters embedded in CSV files
<b>MOD-3214</b>	Crash when .mdb or .acddb is used during a Change Data Source operation
<b>MOD-3222</b>	Unable to see Lookup Field Cleaner dialog in high DPI
<b>MOD-3229</b>	Export Using Command Line Does Not Include Data From External Lookup
<b>DATA PREP STUDIO</b>	<b>(MONARCH COMPLETE ONLY)</b>
<b>DPS-2620</b>	Access to path is denied when publishing a Workspace to Monarch Swarm
<b>DPS-3192</b>	Renamed Sort table name in Sort Window is not applied
<b>DPS-3197</b>	Unselecting all the columns when loading a table using a connector still loads all the columns
<b>DPS-3201</b>	Pinned tables are not saved to the correct folder when saving to Monarch Swarm
<b>DPS-3203</b>	Only the first row is saved when publishing a Workspace to Monarch Swarm which contains a XML data source
<b>DPS-3213</b>	Incorrect message stating that a Transform was created using an older version when it was created by the same version
<b>DPS-3215</b>	Crash when an Unknown File Type is dragged into the Prep Data Window
<b>DPS-3216</b>	Crash when dropping a file with an unknown file extension onto Prep Data grid.
<b>DPS-3219</b>	Index out of bounds error when opening a complex workspace created in an earlier version
<b>DPS-3222</b>	Values in a group column are not grouped correctly when using the Fiscal Year grouping type
<b>DPS-3224</b>	Potential deadlock in complex workspace
<b>DPS-3225</b>	The existence of an error in the change list may cause a crash when Create Statistics Table is invoked
<b>DPS-3226</b>	Attempting to edit a broken Sort may cause a crash
<b>DPS-3231</b>	Workspaces with lookup join and inner complement joins fail to upload to Monarch Swarm
<b>DPS-3232</b>	When saving to Monarch Swarm and a workspace fails to finish uploading after a Project has been created, data sources are not cleaned up
<b>DPS-3233</b>	Saving a Workspace to Monarch Swarm fails when attempting to save a Workspace containing Named Exports twice in succession.
<b>DPS-3234</b>	Unexpected Error when invoking "Remove Reports" when multiple reports are selected.
<b>DPS-3243</b>	Different column naming in Monarch Swarm for an empty values set for a Pivot Transform uploaded from Data Prep Studio
<b>DPS-3244</b>	Crash when naming Unpivot, Transpose, Duplicates and Extract Rows transforms with an existing table name
<b>DPS-3246</b>	No way to suppress the auto-generated column suffix introduced in 14.3 when using a Pivot Transform
<b>DPS-3255</b>	Report Discovery should respect the IgnoreLowAscii Monarch registry setting
<b>DPS-3256</b>	Truncation issue with SUB characters embedded in CSV files

ISSUE ID	RESOLVED ISSUE
DPS-3258	Sort Checkbox is missing in the Pivot Transform
DPS-3269	The OK button in the Save workspace to Monarch Swarm dialog is initially disabled.
DPS-3327	Export options are unavailable for a Workspace uploaded from Data Prep Studio which contains Named Exports
DPS-3329	Reinstate the Angoss export
ENHANCEMENT	Improved error reporting for Monarch Swarm Workspace upload issues.
ENHANCEMENT	Custom format preservation for date and numeric columns when uploading a Workspace to Monarch Swarm

ISSUE ID	RESOLVED ISSUE
<b>MOD-2744</b>	Crash when adding a formula field when connected to Excel or Access lookups and Office 2016 MSI is installed.
<b>MOD-2841</b>	Overly large calendar in Table Design - Lookup fields.
<b>MOD-3083</b>	FirstDay function returns the first day of the current calendar year.
<b>MOD-3097</b>	Runtime Parameter Not Being Applied When Model Is Opened/Loaded
<b>MOD-3127</b>	Error when opening 0KB files via UNC path/Network path
<b>MOD-3135</b>	Summary Export to Excel not Exporting a Column with Blank Header
<b>MOD-3136</b>	Crashing When Opening Summary Wizard when Office 2016 MSI is installed.
<b>MOD-3159</b>	Table not found Error Opening XLS file with Modern engine
<b>MOD-3162</b>	Crash when using Define & Import for a DPS workspace
<b>MOD-3163</b>	Report verify misses some failures when there are multiple failures on a line.
<b>MOD-3173</b>	Check Out License' button does not hide after successful check out.
<b>MOD-3183</b>	Field Size Not Saved Or Respected When Exporting To Access.
<b>MOD-3192</b>	Unicode Compression Not Set When Creating Access Database.
<b>NEW FEATURE</b>	"Modern" Engine for Excel Inputs - supports larger files and more than 255 columns (Monarch Classic & Data Prep Studio)
<b>NEW FEATURE</b>	LargeAddressAware version available - allows more than 2GB memory usage with 32-bit Monarch (Monarch Classic & Data Prep Studio)
<b>DATA PREP STUDIO</b>	<b>(MONARCH COMPLETE ONLY)</b>
<b>DPS-1122</b>	Missing connector name when accessed from Edit Table Info.
<b>DPS-1123</b>	Expand or resize of Report columns in Edit Table Info - Datawatch Server - Content is not working as expected.
<b>DPS-1651</b>	Google Analytics Reported Values incorrect.
<b>DPS-1677</b>	Table Info does not refresh automatically for OData and Datawatch Server.
<b>DPS-1695</b>	Google Analytics Date Syntax not enforced.
<b>DPS-1704</b>	Salesforce Objects table not sorted.
<b>DPS-2140</b>	Salesforce Connector Security Token field is not masked.
<b>DPS-2206</b>	Performance issues with Excel Extended Mode initial load using large data.
<b>DPS-2242</b>	Datawatch Server - Content Connector dialog is hidden after clicking browser.
<b>DPS-2245</b>	Date pattern in conversion options "apply to existing" not applying to Report Discovery sources.
<b>DPS-2277</b>	Table name of Salesforce tables in Preview Data is 'Salesforce Object Table' for all tables opened.
<b>DPS-2412</b>	No tables are displayed in Preview when loading Excel files via Load Selected button in Excel Explorer.
<b>DPS-2466</b>	Swarm Library not opened if it contains a large number of data sources (more than 1000).
<b>DPS-2472</b>	Load Tables button operates on all tables in all databases for certain data sources.

ISSUE ID	RESOLVED ISSUE
DPS-2505	Unformatted error message with an incorrect Swarm URL in Application Settings.
DPS-2506	Progress bar for Access export jumps to 20% then stops.
DPS-2508	Unnecessary 'Load Options' item in pinned table.
DPS-2510	Dragging a Rename change list to a column not working.
DPS-2601	Selecting columns with trailing spaces in names shows an "invalid term" error.
DPS-2618	Unable to append data to a protected Sheet in an XLSX file.
DPS-2668	Deduplicate transform error in specific circumstances.
DPS-2711	Unnecessary error message appears when hiding preview then loading table using Excel file.
DPS-2713	Can't drag and drop a HTML file to a Monarch model node.
DPS-2714	Median not calculated properly on Group By Transform.
DPS-2726	Monarch Model with Suppress Left Whitespace enabled not working.
DPS-277	No default port in Informix connector dialog.
DPS-2772	Crash when editing Column Name then moving focus to Column dropdown icon.
DPS-2787	Crash when opening non-.dpwx file via Open Workspace.
DPS-2797	Typo in interactive help for Append Helper dialog box.
DPS-2798	No options for Negative Joins in Show Join Analysis.
DPS-2799	Crash when Row Count of Join Config dialog becomes 0 and you proceed with combining data.
DPS-2806	Inconsistent number of rows between XML Explorer preview and Preview Data.
DPS-2816	Error when exporting data to Excel using imported format of Date/Time.
DPS-2893	Option "Set Row as Column Headers" crashes when the row contains an empty column after Ditto function applied.
DPS-2909	Tablet PC Settings -> Other -> Handedness affects pop down menus adversely.
DPS-2923	Missing records when loading XML file with duplicated nested tags.
DPS-2983	Incorrect behavior when applying change list - Converting Numeric to Text to formatted values.
DPS-2997	Unsuccessful append of table using Export as Microsoft Excel using the input source file.
DPS-3069	External Table is not in the expected format error when opening Excel file with control character in column header row.
DPS-3140	MS-Access passwords not uploaded properly when saving Workspaces to Swarm.
DPS-3169	Incorrect icon for Edit Load Options in Change History panel.
DPS-551	Unable to select different folder when one is already selected in Business Objects Universe connector.
DPS-676	"Optional feature not implemented" error when opening certain tables in Oracle.
DPS-1984	Values are not redacted when using an imported Monarch model.
<b>NEW FEATURE</b>	Redaction

ISSUE ID	RESOLVED ISSUE
<b>NEW FEATURE</b>	Trigonometric and Geospatial Functions
<b>NEW FEATURE</b>	Monarch Classic-style Lookups
<b>NEW FEATURE</b>	Negative Inner Join
<b>NEW FEATURE</b>	Transpose Transformation
<b>NEW FEATURE</b>	Named Exports
<b>NEW FEATURE</b>	Statistics Snapshots
<b>ENHANCEMENT</b>	Improved support for Monarch Models.
<b>ENHANCEMENT</b>	Option to refresh all data sources.
<b>ENHANCEMENT</b>	Encoding override options for XML, HTML, JSON & CSV.
<b>ENHANCEMENT</b>	Ability to export to Excel without column headers.
<b>ENHANCEMENT</b>	Help to resolve Transforms which become invalid.
<b>ENHANCEMENT</b>	Various styling and other UI enhancements.
<b>ENHANCEMENT</b>	Group By enhancements
<b>ENHANCEMENT</b>	Duplicate Handling Transformation
<b>ENHANCEMENT</b>	Extract Rows Transformation

ISSUE ID	RESOLVED ISSUE
<b>MOD-3027</b>	PDF metadata is not flushed when closing a model or project

<b>ENHANCEMENT</b>	Show data types for columns when defining external lookups
<b>ENHANCEMENT</b>	Updated PDF container engine
<b>ENHANCEMENT</b>	Open SAP AIS files as Database Input
<b>DATA PREP STUDIO</b>	<b>(MONARCH COMPLETE ONLY)</b>
<b>DPS-1757</b>	Fixed preview filter scrolling for large record sets.
<b>DPS-1758</b>	Apply Filter popup is now resizable
<b>DPS-1760</b>	Command buttons order changed for consistency with Guided Help always left most icon
<b>DPS-1762</b>	Resolved crash when error is encountered using ODBC connector
<b>DPS-1763</b>	Inconsistency on startup folder for Monarch vs. DPS
<b>DPS-1768</b>	Fields are missing when using keyboard navigation in Edit Sort dialogs
<b>DPS-1769</b>	Resolved crash when attempting to search a non-existing table and clicking OK
<b>DPS-1770</b>	Resolved crash when editing duplicate transform - Object reference not set to an instance of an object
<b>DPS-1771</b>	Switching duplicate transform shows unusable listbox
<b>DPS-1779</b>	Change default table name when using Do Not Aggregate as Group By transform.
<b>DPS-1780</b>	Added missing descriptions for operators in the help for Group By
<b>DPS-1827</b>	Updated window size for Search and Replace operations when data has very long long strings
<b>DPS-1855</b>	Corrected Column names in Define & Edit sort dialog that were not refreshing
<b>DPS-1856</b>	DPS Sort does not function properly when sorting null values
<b>DPS-1866</b>	Added Sorting capability for Sorted Transform Load Plans
<b>DPS-1870</b>	Resolved issue related to opening Access file from Sharepoint
<b>DPS-1878</b>	Resolved Crash when dragging change history to a table
<b>DPS-1973</b>	Selected table changes after using Discard function
<b>DPS-1986</b>	Column sorting - DPS has a different result compared to Monarch Classic
<b>DPS-1728</b>	Previewing sends duplicate SQL Statement requests
<b>DPS-2096</b>	Back button of Datasource Library guided help pop-up dialog is disabled but clickable
<b>DPS-1710</b>	Should not be able to export to Watson Analytics if table name exceeds 256 characters

ISSUE ID	RESOLVED ISSUE
DPS-1687	Fixed SFDC Connector not showing report date/time fields
DPS-920	Disable Excel/Plugin Load Options Ok button when value is not valid
DPS-926	Updated Calculated Field: FirstDay(,) and LastDay(,) function descriptions that were incomplete
DPS-1077	Updated Multi-Column for Convert Num to Text
DPS-1175	Fixed wrong tool tip in Change List with Apply Filter
DPS-1236	Added focus/highlight to active docked table on the left pane table icons
DPS-1311	Fixed display of Recent Tables list not showing all loaded tables
DPS-1420	Updated for duplicate Phrase in MBK is allowed without clicking the ADD button
DPS-1530	Set Row as Column Headers should be disabled when multiple rows are selected.
DPS-1690	Resolved Crash working with Guided help
DPS-1549	Changed context menu 'Copy with headers' to 'Copy with Headers'
DPS-1537	Changed title of Edit source row limit dialog to "Edit Source Row Limit"
DPS-1630	Updated About page of Monarch IBM Analytics
DPS-1634	Fixed zoom in Prep Data that was not persisting
DPS-1645	Fixed error when loading JSON file - Object reference error when trying to preview or load
DPS-1650	Fixed Guided Help is not displayed properly when dialog is maximized
DPS-1652	Updated Salesforce Connector dialog for entry of password and token
DPS-1672	Filter on preview screen not handling long text well
DPS-1686	'First Row Has Column Name' feature is not applied in the table preview if the tickbox is unchecked during the loading of data
DPS-2157	Resolved crashes when the "Edit Transform" of SetColumnHeaders-transformed table is clicked
DPS-1782	Fixed issues preventing renaming table after transform for Undocked window
DPS-1240	Fixed issue preventing undocking multiple tables at the same time
DPS-1759	Updated filter type descriptions when accessing from filter command button
DPS-1056	Tooltip displays for the first table even if text is complete
DPS-1562	Show Duplicated Selected Columns Lists All Columns on Edit
<b>NEW FEATURE</b>	Export to Monarch Swarm
<b>NEW FEATURE</b>	Export to Tableau Server
<b>NEW FEATURE</b>	Password protection for DPS workspaces

ISSUE ID	RESOLVED ISSUE
<b>NEW FEATURE</b>	Monarch Swarm Library. Appears as a new tab in the existing Library allowing users to share data sources and tables using Swarm collaboration.
<b>NEW FEATURE</b>	Partial support for reading Monarch Classic Models and Projects
<b>NEW FEATURE</b>	Monarch Node Table Type. Allows a report to be mined in Report Discovery and then multiple reports can be added to the table view in Prep Data.
<b>ENHANCEMENT</b>	Redesigned Dedup Transform
<b>ENHANCEMENT</b>	Simplified Excel Exports, only including the worksheet
<b>ENHANCEMENT</b>	Optimized auto-generated tablenames
<b>ENHANCEMENT</b>	Ditto may now be used on all data types
<b>ENHANCEMENT</b>	Filtering auto-collapse in preview data
<b>ENHANCEMENT</b>	Save Icon
<b>ENHANCEMENT</b>	Improved Recent Objects list
<b>ENHANCEMENT</b>	Salesforce Connector supports TLS 1.1 or greater - required for connections as of March 2017
<b>ENHANCEMENT</b>	Move columns using drag/drop in Prep Data view
<b>ENHANCEMENT</b>	Reordered Export Icons
<b>ENHANCEMENT</b>	Preview Data is reloaded when opening workspaces from a previously saved state
<b>ENHANCEMENT</b>	Rows automatically resized for multi-line data values
<b>ENHANCEMENT</b>	Add More Stuff icon available in Prep Data view
